

## BERTHING FOR NARROW BOATS AND BARGES

### TEWKESBURY MARINA

Walcon's System 21 pontoons were used throughout, totalling 1,240 metres in length. This popular and durable design uses a galvanised steel frame with a hardwood deck supported on fibre concrete floats, and is widely used in both fresh and salt water environments.

Simon Amos, Marina General Manager at Tewkesbury Marina, commented: "Over the last ten years Tewkesbury Marina has worked with Walcon Marine to replace all of the pontoons in two basins as well as the river moorings on both sides of the River Avon. For Basin 2 we again used Walcon's System 21 pontoons, which we have been very pleased with from the installation in Basin 1 in 2007. They have also supplied an aluminium bridge, which looks superb.

"It has been a pleasure working with Walcon again. From the initial planning of the refurbishment to the removal and replacement of the pontoons under their watchful eye, the Walcon staff have been excellent in every aspect. They were well organised and very efficient and tidy whilst carrying out their work. Their on-site foreman ensured the job ran very smoothly and was carried out within the timescale."

## About Tewkesbury Marina

*Tewkesbury Marina is a privately-owned company and, with nearly 400, fully serviced berths in three individual basins, it is one of the largest inland marinas in the UK. It provides direct access to two major rivers; the Avon and the Severn. Walcon Marine is proud to have been working with Tewkesbury Marina for nearly 50 years.*

Founded in 1963, Walcon Marine is the market leader in the design, construction and installation of marinas, yacht harbours and berthing facilities around the world. As probably the longest established and most experienced company in its field, Walcon Marine is a global organisation with manufacturing facilities in the UK, Australia and Dubai. Its pontoons are now installed in over 30 different countries on five continents, and recent projects include the marina built at Portland on the south coast for England for the 2012 Olympics.
